Summary

Junior Frontend Developer specializing in Angular development with experience building responsive web applications using HTML, CSS, JavaScript, and REST APIs. Passionate about building scalable UI components and improving frontend architecture

Education

Bachelor of Science in Mathematics and Computer Science (Graduated 2025) Faculty of Science

Projects

E-commerce App

(html & css & angular & tailwind & carousel)

A modern responsive e-commerce website built with Angular and Tailwind, featuring product listings, cart functionality, and a clean UI, designed to demonstrate strong front-end development skills.

photographer-portfolio

(html & css & angular & tailwind & swiper & gsap & aos)

A modern photography portfolio built with Angular, featuring galleries, animations, and reusable components, designed to showcase professional photography with a responsive and elegant UI.

wealthome-project

(html & css & js)

A responsive real estate website built with HTML, CSS, and JavaScript, featuring property listings, animations, and a clean modern design.

Nexcent

(html & css & bootstrap & js)

A responsive landing page inspired by Nexcent, built with HTML, CSS, and JavaScript, featuring a clean layout and interactive sections.

js-page

(html & css & js)

A responsive web page built with HTML, CSS, and JavaScript demonstrating DOM manipulation, events handling, and core JavaScript skills.

photography-page-from-figma-design

(html & css & js & aos & gsap & tailwind)

A responsive photography landing page built from Figma using HTML, CSS, and JavaScript with AOS and GSAP animations to create a smooth, interactive user experience.

Skills

- Angular (Components, Routing, Services, Guards basics) - JavaScript (ES6, DOM Manipulation, API Integration) - HTML5, CSS3, Bootstrap / Tailwind - REST APIs (HttpClient) - Git & GitHub - Responsive Web Design
